Features

The Cine Line performs mainly on medium and high frequencies, presenting you with a soft, discrete, and modern design, whilst maximizing the acoustic performance of your room.

The absorption panels from Cine Line are commonly used to control sound reflections and the excess of reverberation in many kinds of rooms. When positioned a few centimeters from the surface of the wall, the Cinema Flat panels can also be quite efficient for the treatment of medium frequencies and the improvement of low ones. Cine Line is a flexible solution for sound control across a multitude of applications.

- ✓ Efficient absorption
- ✓ Ease of installation
- ✓ Excellent value for money
