

Super Bass 90

Ref. - COMB2B
EAN13 - 5600217588251
Box - 62 x 62 x 62 cm
Weight - 5kg
Each Panel - 60 x 30 x 42 cm
Units per Box - 4

Features

The Super Bass 90, sold in sets of four units per package, is considered to be one of the best optimized solutions when treating low frequencies. They are also commonly used as an excellent complement to other acoustic products.

The unique shape of all the Bass Trap options presented by Vicoustic will allow you to minimize the dramatic effects that come from resonating waves, whose existence is commonly associated to confusion and the "Boom" sound that you often hear in an untreated room. The Super Bass 90 is the perfect complement to the Flexi Line absorption panels.
