## Super Fusor Spyke

Ref. - C1DP

EAN13 - 5600217588060

Box - 62 x 62 x 62 cm

Weight - 5kg

Each Panel - 60 x 60 x 5 cm

Units per Box - 4

### Features

Manufactured in high quality EPS (Expanded Polystyrene), the Super Fusor Spyke performs as sound energy redirector, fixing frequent room acoustic problems such as speech intelligibility and musical imprecision. When applied on ceilings to treat medium and high frequencies, the Super Fusor Spyke redistributes sound across the room generating a more uniform listening ambience. Thanks to its logarithmic geometry, Super Fusor Spyke performs in a more moderator approach when compared to a common diffusion product, avoiding excessive flutter.

- ✓ Ease of installation
- ✓ Can be painted with water based inks

### Technical Information

**Material:** High Density EPS
