Trap Fusor RD11

Ref. - B2DRQ11
EAN13 - 5600217588039
Box - 62 x 62 x 62 cm
Weight - 5kg
Each Panel - 60 x 60 x 7,5 cm
Units per Box - 6

Features

Manufactured from high quality EPS (Expanded Polystyrene) the Trap Fusor RD11 is a unidirectional panel that controls sound reflections in two different ways – absorption and diffusion. The hybrid structure allows sound energy to be either trapped in the cavities or scattered by the curved surfaces. Usually applied on the treatment of High frequencies, the Trap Fusor RD11 panel represents true acoustic science development.

- ✓ High efficiency diffusion and absorption
- ✓ Ease of installation
- ✓ Can be painted with water based inks

Technical Information

Material: High Density EPS
Fire Rating: M1
Color: White
Installation: Adhesive FlexiGlue

Applications

Home Theatres, Listening Rooms, Recording and Broadcast Studios, Post-Production Studios, Lecture Halls, Distance Learning Rooms, etc.

Performance
